**MEED AND MASHREQ KNOWLEDGE PARTNERSHIP**  
MEED and Mashreq have partnered to provide unique industry insight and understanding of the UAE Energy Sector.

The MEED-Mashreq Energy Partnership was initiated in May 2018 to examine the opportunities and challenges expected to be created by future energy trends across the Middle East and North Africa (Mena) region.

Our activities have centred on issues such as the hydrocarbons diversification strategies being adopted by Mena oil-producing nations, as well as renewables, worker safety and digital technologies. This newsletter offers you access to the 12 months assets and activities produced by the partnership.
